Hello everyone:

Apparently accounts in good standing on YouTube can use its livestream feature. A livestream, for those who do not know, is a video recorded live which people can see. I wanted to know what you guys thought about using this feature to livestream Nicholas's sermons and studies on YouTube to reach people. After all, livestreams are public on that website, and will appear in its visible livestream section.

Or perhaps it is time for us to move on from YouTube..?
